Doha Bank Saksham Program

Program update May 2022

Program Summary

Worli

Ambedkar School

233 Students
Grades 3 to 5

18 Teachers

Program Objectives

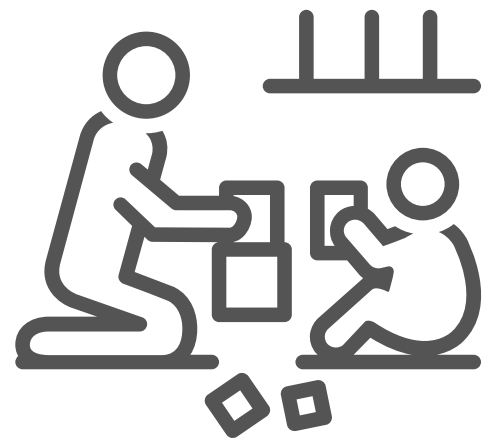

- Ensuring foundational literacy and numeracy among children (from grade 3 to grade 5) using tablets
- Improve learning through digital literacy skills among students and engage them learning with technology more meaningfully
- Enhance a teacher's role in engaging with children to develop foundational numeracy and literacy more meaningfully and through creating interest with technology enabled learning

Program Implementation – May 2022

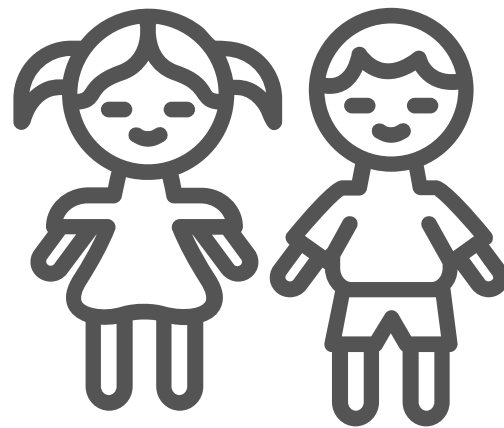

- Resource Person for the program was appointed in May, and trained on various aspects of the Saksham program
- Summer community mobilization and program began, as planned
- Tablets were planned for purchase in May, but had to be postponed to June due to delays in fund transfer
- Permission for beginning sessions in Ambedkar school from government officials applied for, is expected to be received by third week June
- School will reopen in mid-June and will need 2 weeks for classes to settle down before any new intervention can be taken to schools

Summer Camp Highlights

A summer camp was organised for students at a community learning centre in Worli from 2 to 31 May. An active participation was seen from students and parents.

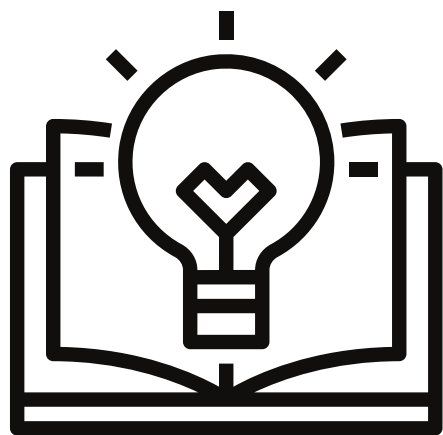

**66 theme-based
activities**

**91 students
participated**

**Do It Yourself (DIY)
approach**

**Edutainment
sessions**

**Story reading
sessions**

Mother's Day - 8 May

LEARNING LINKS
FOUNDATION
WHERE EDUCATION MEETS LEARNING

Students made greetings cards for their mothers to celebrate Mother's Day. Hand-made greetings cards included special messages for mothers for their irreplaceable contribution.

National Technology Day - 11 May

LEARNING LINKS
FOUNDATION
WHERE EDUCATION MEETS LEARNING

The theme of this year was: "Integrated Approach in Science and Technology for a Sustainable Future". Awareness session was conducted with students around the theme. Students shared ideas on how technology can solve problems around the world.

READUTSAV - A book reading camp

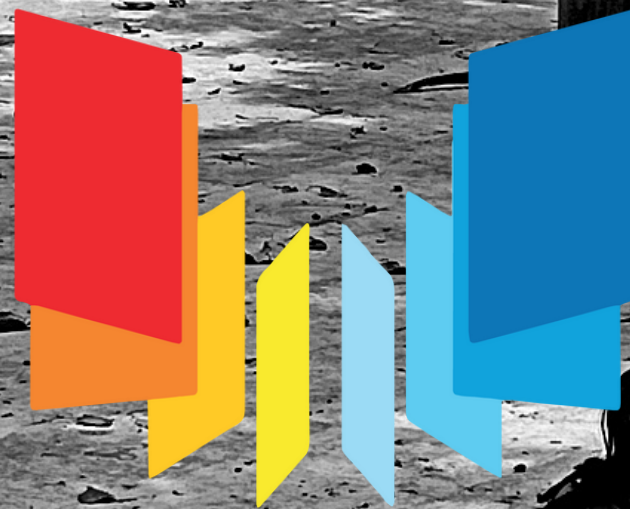

LEARNING LINKS
FOUNDATION
WHERE EDUCATION MEETS LEARNING

A book reading camp was organised for students. 181 level-wise multilingual books were made available for students. Several story telling sessions were also organised.

Way Forward

- Orientation session with the school principal and teachers
- Creating IDs of students and teachers on GOORU Navigator
- Session planning and time-table making in collaboration with teachers
- Start conducting sessions with students
